

I am outraged at your consideration of dropping ownership restrictions on media companies. I work in radio, and have been "sold" 5 times in 7 years!!! There is NO local input, all decisions are made three thousand miles away. In order for democracy to work, the populace needs to be informed. Placing all the power in the hands of a VERY few will greatly reduce the flow of information and differing opinions. The only agenda the television and newspaper people will put forward is their own. I know-between working for Clear Channel and having Gannett own the local paper puts us in a very weak position to get viewpoints other than what is fed us. The newspaper is all ads-little local news. Putting more power in the hands of a select few is not in America's best interest. History will not look kindly on this generation. We've raped the planet and given the country away to special interests.
